

Our brewers are putting this theory to the test with our newest LTO, The Limit Does Not Exist Double IPA. Two Row, Flaked Wheat, and Red Wheat set the stage for a clean, smooth, crumbly cracker base, and highlight the looming Giants hoisting up this ale—the HOPS!

Let's base-jump into the kaleidoscope of characteristics that define this beer: first up is the Citra, the Superstar of the hop world! Jam-packed with bursts of citrus, namely lemon but including lime and other tropical fruits, this hop leaves a huge aromatic footprint and defines the head of our beer. Amarillo Hops punch in with high acidity and a strong influence of oranges, spice, and wood, bringing the bark and bite to the flavor profile. Last but not least, BRU-1 is sometimes called the King Hop for hazy IPAs, so we had to throw this one in the mix! Super-fruity and very pineapple forward, this is a newer hop on the scene but definitely able to hold its own. Often marked for its intense notes of sweet tropical fruit and cut green grass, BRU-1 is the perfect addition to our stacked Hops profile.

The Limit Does Not Exist DIPA is a heavy-hitting juice bomb crammed with three distinct hops all working in harmony to deliver a depth and complexity that has no bounds. **Cheers!**

ABV: 8.0%
